

About Us

Solutions Lounge & Restaurant featuring Escapology®, at 22nd and California in the heart of Downtown, is Denver's first and only live-action escape room venue with a full restaurant and bar. Devoted to enhancing our guests dining experience or gaming experience to new levels, our 6,100 square foot space boasts seven themed escape rooms and a 3,500 square foot dining area and bar with a Neo-Victorian steampunk design aesthetic. Both our rooms and our restaurant are open seven days a week, serving lunch, happy hour and dinner. Our desire is to inspire, charm and entertain every person who visits.

Guests may spend their time solving a mysterious and intriguing live-action puzzle in one of our seven thrill-seeking escape rooms or they may entice their taste-buds with our noteworthy cheese-centric cuisine and cocktails, specially themed after our escape room scenarios.

One noteworthy aspect of our delicious culinary offerings is our Fromage a Raclette— a semi-hard cow's milk cheese that is usually fashioned into a wheel of about 13 pounds and melted. We do our melting with a steampunk-inspired device over a plate of vegetables and other snacks tableside. We specialize in cheeses both locally sourced and imported because we want our patrons to experience the best cheeses the world has to offer. All of our offerings can be enjoyed in a variety of settings, such as the lounge, the dining room, the bar, or the patio.

Whether guests are looking for the newest fun and indulgent happy hour, an enthralling escapade in puzzle-solving, or just some eclectic people watching, Solutions Lounge & Restaurant featuring Escapology® caters to providing a space for fellow adventurers to come together and escape the ordinary.
