

Who We Are

Tina Ronder, Co-Founder

Tina Ronder is originally from Savannah, Georgia, and graduated from Georgia Southern University with a Bachelor of Arts. Upon graduation, she moved to South Florida and began her career in the hospitality industry, working for a manufacturer's rep firm who represented high end tabletop lines. She was then recruited by a national distributor as an outside sales representative, working with many of the top South Florida restaurants as well as some of the best chefs in the country. Her passion for the hospitality industry never waned during her time

off from work while raising her children. She has now returned to her career in hospitality in the form of operating Solutions Lounge & Restaurant featuring Escapology® with her husband, Vic Ronder.

Vic Ronder, Co-Founder

Vic Ronder is originally from upstate New York. He has his MBA from Northeastern University, and after working for several Fortune 500 companies, he became self-employed in 1993, operating multiple financial and consulting firms. In early 2016, Vic was looking to diversify and came across an escape room for sale. After visiting it and others, he was hooked but felt something was missing. After discussing the concept with Tina, it was clear that food and beverage was the missing component that would dramatically enhance the experience. With his wife's

hospitality expertise and his knowledge of finance and business management, the couple bought an Escapology® franchise and started building their newly envisioned "it's not just an escape room" venue in Denver.
